1. Pseudo-differential operators of class $S_{0,0}^m$ on the Herz-type spaces ", Hokkaido Math. J. **38**, no.2, 283-302, (2009).

2. Sharp maximal inequalities and bilinear estimates ", RIMS **B18**, (2010), 133-146.

3. Sharp maximal inequalities and its applications to some bilinear estimates ", J. Fourier Anal. Appl. **17**, (2011), no.2, 265-289.

4. The Navier-Stokes equations and weak Herz spaces ", Advances in Differential Equations, (2011), no.16, 1049-1085.

5. The sharp A_p constant between BMO and weighted BMO ", Submitted.

6. Convolution operators and div-curl lemma on weighted Hardy spaces with an application to Navier-Stokes equations ", Submitted.
