

論文リスト

- [1] H. Ishihara and K. Matsuno,
“Kaluza-Klein Black Holes with Squashed Horizons”
Prog. Theor. Phys. **116**, 417 (2006).
- [2] H. Ishihara, M. Kimura, K. Matsuno and S. Tomizawa,
“Kaluza-Klein multi-black holes in five-dimensional Einstein-Maxwell theory”
Class. Quant. Grav. **23**, 6919 (2006).
- [3] H. Ishihara, M. Kimura, K. Matsuno and S. Tomizawa,
“Black holes on Eguchi-Hanson space in five-dimensional Einstein-Maxwell theory”
Phys. Rev. D **74**, 047501 (2006).
- [4] D. Ida, H. Ishihara, M. Kimura, K. Matsuno, Y. Morisawa and S. Tomizawa,
“Cosmological black holes on Taub-NUT space in five-dimensional Einstein-Maxwell theory”
Class. Quant. Grav. **24**, 3141 (2007).
- [5] S. Tomizawa, H. Ishihara, M. Kimura and K. Matsuno,
“Supersymmetric black rings on Eguchi-Hanson space”
Class. Quant. Grav. **24**, 5609 (2007).
- [6] K. Matsuno, H. Ishihara, M. Kimura and S. Tomizawa,
“Coalescence of rotating black holes on Eguchi-Hanson space”
Phys. Rev. D **76**, 104037 (2007).
- [7] C. -M. Yoo, H. Ishihara, M. Kimura, K. Matsuno and S. Tomizawa,
“Horizons of coalescing black holes on the Eguchi-Hanson space”
Class. Quant. Grav. **25**, 095017 (2008).
- [8] T. Nakagawa, H. Ishihara, K. Matsuno and S. Tomizawa,
“Charged rotating Kaluza-Klein black holes in five dimensions”
Phys. Rev. D **77**, 044040 (2008).
- [9] K. Matsuno, H. Ishihara, T. Nakagawa and S. Tomizawa,
“Rotating Kaluza-Klein multi-black holes with Gödel parameter”
Phys. Rev. D **78**, 064016 (2008).
- [10] S. Tomizawa, H. Ishihara, K. Matsuno and T. Nakagawa,
“Kaluza-Klein-Kerr-Gödel Black Holes: Kaluza-Klein Black Holes with Rotations of Black Hole and Universe”
Prog. Theor. Phys. **121**, 823 (2009).
- [11] K. Matsuno and H. Ishihara,
“Geodetic precession in squashed Kaluza-Klein black hole spacetimes”
Phys. Rev. D **80**, 104037 (2009).
- [12] M. Allahverdizadeh, K. Matsuno and A. Sheykhi,
“Charged rotating Kaluza-Klein black holes in dilaton gravity”
Phys. Rev. D **81**, 044001 (2010).

- [13] K. Matsuno and K. Umetsu,
“Hawking radiation as tunneling from squashed Kaluza-Klein black hole”
Phys. Rev. D **83**, 064016 (2011).
- [14] T. Tatsuoka, H. Ishihara, M. Kimura and K. Matsuno,
“Extremal charged black holes with a twisted extra dimension”
Phys. Rev. D **85**, 044006 (2012).
- [15] K. Matsuno, H. Ishihara, M. Kimura and T. Tatsuoka,
“Kaluza-Klein vacuum multi-black holes in five dimensions”
Phys. Rev. D **86**, 044036 (2012).
- [16] K. Matsuno, H. Ishihara, M. Kimura and T. Tatsuoka,
“Charged rotating Kaluza-Klein multiblack holes and multiblack strings in five-dimensional Einstein-Maxwell theory”
Phys. Rev. D **86**, 104054 (2012).
- [17] Y. Kanou, H. Ishihara, M. Kimura, K. Matsuno and T. Tatsuoka,
“Charged black holes in a five-dimensional Kaluza-Klein universe”
Phys. Rev. D **90**, no. 8, 084004 (2014).
- [18] M. Kimura, H. Ishihara, K. Matsuno and T. Tanaka,
“A simple diagnosis of non-smoothness of black hole horizon: curvature singularity at horizons in extremal Kaluza-Klein black holes”
Class. Quant. Grav. **32**, no. 1, 015005 (2015).
- [19] K. Matsuno, H. Ishihara and M. Kimura,
“Multi-black holes on Kerr-Taub-bolt space in five-dimensional Einstein-Maxwell theory”
Phys. Rev. D (2015) へ投稿予定.
- [20] H. Ishihara, M. Kimura and K. Matsuno,
“Multi-black strings in a Kaluza-Klein universe”
Phys. Rev. D (2015) へ投稿予定.
