

OCAMI Reports Format

This format consists of the following three kinds of files:

- (a) `front_matter.tex`
- (b) `abstract_in_English.tex` and `abstract_in_Japanese.tex`
- (c) `unify_pdfLaTeX.tex` and `unify_LuaLaTeX.tex`

1. By using the file (a), please make the front matter of this report in English. Preface should include the purpose, activities and the obtained results.
2. Each file of (b) is a format for an abstract for each speaker or a lecture note regarding the research project. The file `abstract_in_English.tex` can be used in English and the file `abstract_in_Japanese.tex` in Japanese. It is also possible to make abstracts by using your own format and import their PDF files directly to the file (c) (see the following 4.). The amount and other details of the abstract will be left to the organizers.
3. By using either file of (c), you can integrate the PDF files of (a) and (b) into one PDF file with page numbers, headers and the table of contents. You can use either file of (c). However, in the file `unify_pdfLaTeX.tex`, you can not use Japanese letters in the table of contents. Please make this report as far as you can.
4. By using either file of (c), you can also import the related PDF files such as slide files and posters.
5. If you will import slide files to this report, we would like you to use slide files which are made without commands such as `\onslide` and `\pause` (i.e. for each slide file, the number of slides should equal to the number of pages) for better readability of this report. We would be grateful if you could ask the speakers to send you their slide files which are made without such commands.
6. The OCAMI Reports will be registered in the institutional repository of Osaka City University and will be assigned a DOI. OCAMI Reports will be put on the web page of OCAMI:
<https://www.omu.ac.jp/orp/ocami/publications/reports/>
7. After finishing this report, please send
 - Tex file and PDF file of (a),
 - PDF files of (b)*,
 - Tex file and PDF file of (c),
 - related PDF files used in this report if any (e.g. slide PDF files)

to our office: `gr-ami-kyoten@omu.ac.jp`

* If you ask the OCAMI staff to make the table of contents, please also submit Tex files of (b) if possible.

If you have any question, please do not hesitate to contact us.
